

For students and homeschooling parents as well, here is a list of the movies available in the Video department grouped by subject. They are in both the children's non-fiction and the adult non-fiction sections. Please remember that they are filed under their respective Dewey Decimal numbers and not by title. If you have any questions, the personnel at the video counter are equipped with this list and have the knowledge to help you find the film you are looking for. Thank you!
